

EIBA ANAS ABDALLA

Software Engineering Student

Istanbul, Turkey | +90 530 615 4677 | ebaaanas789@gmail.com

<https://github.com/ebaa-anas>

SUMMARY

Final-year Software Engineering student with a strong foundation in web development, object-oriented programming, and Python. Experienced in building responsive user interfaces and managing databases using HTML, CSS, JavaScript, and MySQL. Proven track record of reliability, leadership, and communication from client-facing and educational support roles. Eager to leverage technical skills in a challenging software development or AI-focused environment.

WORK EXPERIENCE

July 2023 – July 2025

Educational Consultant

StudyFans Company & Nerdz Academy, Istanbul, Turkey

- Managed high-volume student communications and maintained meticulous records using Bitrix24 CRM.
- Guided students through university application processes and provided comprehensive academic support to improve subject understanding.
- Coordinated educational workshops and collaborated with instructors to update curriculum materials in alignment with current standards.

June 2021 – Aug 2022

English Teacher Assistant

WAVES Training Center, Khartoum, Sudan

- Taught English as a Second Language to diverse groups after completing a Teacher Training Certificate (TTC).
- Developed engaging lesson plans and assessments to track student progress.

Sep 2019 - Nov 2019

Front-End Developer (Trainee)

Nilogy Company, Khartoum, Sudan

- Developed and maintained responsive websites for clients using HTML, CSS, and JavaScript.
 - Collaborated directly with clients to understand their needs and deliver user-focused web solutions.
-

VOLUNTEER EXPERIENCE

Protocol Team Volunteer

Alsharq Forum (Alsharq Conference), Istanbul, Turkey

- Served as a liaison for high-profile guests and speakers, managing and ensuring adherence to the event schedule.
 - Facilitated effective communication between international delegates and the hosting team to resolve operational challenges.
-

PROJECTS

Athar – AI-Powered Crisis Response Platform | In progress

- Currently architecting a scalable, real-time ecosystem using React, TypeScript, and Firebase focusing on system reliability for high-stress crisis situations.
- Designing a modular component system and high-fidelity UI using Tailwind CSS and Shadcn UI to ensure accessibility and responsiveness.
- Establishing the technical foundation and global state management strategies to handle complex user roles.
- Defining data models and verification algorithms for the upcoming AI-based matching engine

Weather Web Application | JavaScript, HTML5, CSS3

- Built a dynamic weather dashboard that fetches and displays real-time climate data based on user location.
- Integrated 3rd-party REST APIs (OpenWeatherMap) to handle asynchronous data requests.
- Designed a responsive user interface that adapts seamlessly to different screen sizes.

Focus - Track Application | JavaScript, DOM Manipulation

- Developed a task management tool featuring full Create, Read, and Delete functionalities.
- Implemented complex DOM manipulation logic to allow users to filter tasks and dynamically update statuses.

TECHNICAL SKILLS

- Programming Languages: TypeScript, JavaScript (ES6+), Python, C++, Java, C.
- Web Technologies: React.js, Tailwind CSS, Shadcn UI, HTML5, CSS3, DOM Manipulation, REST APIs, JSON.
- Databases: Firebase, MySQL, MongoDB, NoSQL.
- Tools & Platforms: Git, GitHub, Vite, VS Code, Visual Studio, Figma.

EDUCATION

Bachelor of Science in Software Engineering Altinbaş University, Istanbul, Turkey	2022 - Expected Graduation: 2026
Bachelor of Science in Information Technology University of Khartoum, Sudan	2016 - (Incomplete)

COURSES & CERTIFICATES

- Python Data Structure | University Of Michigan.
- Python Training Course | FTL (Frontier Tech Leaders Community).
- Teacher Training Certificate (TTC) | WAVES Training Center.
